Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 2 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

1. This communication is responsive to preliminary amendment filed March 19, 2004. Claims 1-14 are currently pending in this application.

Specification

2. The disclosure is objected to because of the following informalities: The specification is inconsistent in the use of reference numerals. For example, line 26 of page 9 makes reference to spinners 20 and 30. Apparently 20 and 40 was intended. Reference numeral 30 is an adjustment device. Note also the use of reference numeral 50 in line 9, page 12 in reference to a spinning module. Reference numeral 50 belongs to an adjustment device similar to 30.

Appropriate correction is required.

3. The lengthy specification has not been checked to the extent necessary to determine the presence of all possible minor errors. Applicant's cooperation is requested in correcting any errors of which applicant may become aware in the specification.

4. This application currently names joint inventors. In considering patentability of the claims under 35 U.S.C. 103(a), the examiner presumes that the subject matter of the various claims was commonly owned at the time any inventions covered therein were made absent any evidence to the contrary. Applicant is advised of the obligation under 37 CFR 1.56 to point out the inventor and invention dates of each claim that was not commonly owned at the time a later invention was made in order for the examiner to

Art Unit: 2859

consider the applicability of 35 U.S.C. 103(c) and potential 35 U.S.C. 102(e), (f) or (g) prior art under 35 U.S.C. 103(a).

Allowable Subject Matter

5. Claims 1-14 are allowed.

6. The following is a statement of reasons for the indication of allowable subject matter: The prior art considered, does not disclose nor fairly suggest, a plurality of spinning modules positioned in a probe or housing, for positioning as a unit in a homogeneous portion of a MAS spectrometer.

7. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Zens, Lilly et al., Bartuska and Tschirky et al. disclose sample handling devices for NMR spectrometers. Note the abstract and drawings of each disclosure.

8. This application is in condition for allowance except for the following formal matters:

Correction of the specification.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
